LIVERPOOL NARRATIVE

**SHOWCASING INNOVATION. CELEBRATING CULTURE.
BUILDING INCLUSIVE AND SUSTAINABLE ECONOMIES.**

Liverpool City Region attends MIPIM Cannes just weeks ahead of hosting Europe's biggest music festival - Eurovision - on behalf of Ukraine.

We will be exploring the creation of sustainable and inclusive place in discussion with our UK and European partners whilst showcasing innovation across the digital and knowledge economies.

The ongoing relationship between cultural celebration and inward investment leads to new conversations about how smart cities and places can be created with foresight and vision for the benefit of all.

11.30

TRANSPORT: BRIDGING THE E, THE S, AND THE G WITH MOBILITY

Transport and Sustainability - RX Global/MIPIM event
Steve Rotheram, Mayor of the Liverpool City Region
on Panel

As we increasingly talk about regenerating cities, connecting citizens from the suburbs to city centres, and improving quality of life and the environmental impact of cities, the question of transport is at the core of these debates. How much does investment in transport enhance the value of real estate assets while bringing value to citizens? How best do we integrate mobility in urban planning and housing strategies? What impact does transport development have on suburban areas, particularly concerning affordable housing policy and tackling sharp increases in house prices? Finally, what effect do transport and mobility have on E, S & G?

Palais des Festivals, Infrastructure Stage, Agora Room (P3)
